

Former Lockheed Martin
French Road Facility

Purpose

On behalf of Lockheed Martin Corporation (Lockheed Martin), Tetra Tech Inc. (Tetra Tech) has prepared this report for the Solvent Dock Area at the former Lockheed Martin French Road facility in Utica, New York (the Site). This report is required by the October 3, 2008 New York State Department of Environmental Conservation (NYSDEC) Order on Consent (the Order; CO 6-20080321-5), and in Attachment 3-1 (Corrective

Received letter from NYSDEC dated March 29, 2018 requesting that Lockheed Martin test groundwater for emerging contaminants, specifically per- and polyfluoroalkyl substances and 1,4-dioxane.

2. Summary of Findings Made During the Reporting Period

No significant new findings were made during this reporting period.

3. Summary of Changes Made During the Reporting Period

There were no changes made during the reporting period.

4. Summary of Contacts Made with Representatives of the Local Community and Public Interest Groups During the Reporting Period

No interaction occurred with local community or public interest groups during the reporting period.

5. Summary of Problems Encountered During the Reporting Period

No significant problems were encountered during the reporting period.

6. Changes in Personnel Conducting or Managing the Corrective Measures During the Reporting Period

Kevin Carpenter is the new NYSDEC Project Manager.

7. Summary of Work Planned for the Next Reporting Period

The following activities are scheduled or anticipated for completion during the next reporting period:

Continue operation and maintenance of the GCTS, including monthly effluent sampling for compliance with the existing SPDES permit, and quarterly sampling and monitoring; data to be provided as part of the monthly NetDMRs and quarterly system OM&M summaries.

Continue operation and maintenance of the SSDS, including quarterly SSDS sampling and monitoring; data to be provided as part of the quarterly system OM&M summaries.

Submit to NYSDEC/NYSDOH the 95% Design and draft Remedial Action Work Plan for soil removal at the FNP source area and surface soil sampling locations.

Continue monthly project status calls with NYSDEC and NYSDOH.

Respond to NYSDEC letter of March 29, 2018 requesting Lockheed Martin sample groundwater for emerging contaminants.

Perform annual groundwater monitoring, including the sampling and analysis of per- and polyfluoroalkyl substances and 1,4-dioxane.
