

# LMSC PACKAGING STANDARD

**P-203**

Revision 1  
Page 1 of 2

**NOTE:** DO NOT use manufacturer's/seller number. Spell out name in full, do not use initials.

3.2.2 Intermediate Package Marking and Shipping Container Marking. The requirements per the basic Packaging Standard must be met.

3.2.3 Conflicting Requirements. Any conflict between the requirements specified in this standard and the item specification or standard shall be referred to the cognizant LMSC procurement organization for resolution.

#### **4.0 QUALITY ASSURANCE**

4.1 All marking/labeling of unit packages shall be in conformance with this standard or be rejected and returned to the supplier at his expense.

#### **5.0 NOTES**

5.1 This standard was developed and implemented to assure proper identity and provide traceability information.
